

Kalisha Molloy

Data Protection Service Lead

Kalisha's work journey began in a call centre cold calling; she was quickly promoted to team leader and soon realised how much she enjoyed coaching and motivating people.

She then worked for a large telecoms company in London on the Rail Service Desk. Every fault that came in was just as important as the next, especially if it could result in a station closure, so she formulated a more productive way of working and was promoted to Service Centre Performance Assistant. She loved this role as she had the freedom to make it her own and to really make a difference to the business.

She joined the Schools' Choice HR team after moving to Suffolk and is flourishing here as she has in previous roles. She became part of the Data Protection team and is thoroughly enjoying the challenges it brings.

Three Things about Kalisha!

Kalisha loves ... spending time with her family, making people laugh and socialising with friends.

Kalisha wishes "losing weight was as easy as putting it on!"

Kalisha's favourite teacher was Señora Navarro at Lady Elizabeth School (Spain).

She says "she saw potential in me and moved me into the Spanish class for the native speakers; she invested a lot of her time in me and really pushed me to my limits and for that I'm thankful."

"It's reassuring to know there are so many people within Schools' Choice who are happy to lend a helping hand; it makes your day so much easier when working within a friendly environment such as this."
~ Kalisha Molloy
