

Lisa Goddard

Safeguarding Training and Development Manager

Lisa joined Schools Choice in April 2018, having previously worked for 18 years within safeguarding teams in secondary schools in Suffolk and Essex.

Through this she has gained a vast amount of knowledge and experience which underpins her passion for supporting and safeguarding children so that they can fulfil their potential.

During this time, Lisa has also qualified as a Psychodynamic therapist with a specific interest in attachment issues.

She understands the pressures in schools around safeguarding and supporting children, her aim is to support those in safeguarding roles by keeping them as up to date as possible through the training.

Three Things about Lisa!

Lisa loves ... reading and walking, ideally by the sea!

Lisa wishes “to live in a world where every child can go to school and be safe from harm.”

Lisa’s favourite teacher was Mrs Laybourne who taught her at secondary school.

She says, “she listened and made me feel that my opinion was valuable. She gave me the confidence to have a voice.”

“I am relishing the new challenge at Schools Choice, I hope to support all safeguarding staff in schools with training that is relevant and up to date to enable them to safeguard the children in their care .”
